OEC Tree Planting Sites

Syracuse Demographics

Map displaying the relationship between Onondaga Earth Corps (OEC's) tree planting sites, and the racial composition of the surrounding census tract. The basemap shows the distribution of the white vs non-white population. Blue areas represent higher non-white populations and pink represent higher white populations. The circles represent the number of trees planted within the census tract. The larger the circle the more trees planted there. Data on the demographic information was downloaded from the Census Bureau Data website, while tree count was provided by OEC. U.S. Census Bureau. (N.d.) Race Estimates, B02001. 2021 American Community Survey 5 Year Estimates.
