

Syracuse Tree Equity Scores and Onondaga Earth Corps Tree Planting Sites

OEC Trees Planted by Neighborhood

- 16 - 150
- 151 - 450
- 451 - 936

Tree Equity by Block Group

Syracuse Average: 80

- Highest Priority (36 - 65)
- Higher Priority (66 - 75)
- Moderate Priority (76 - 85)
- Lower Priority (86 - 95)
- Low Priority (95 - 100)

Tree equity score is a measure of equitable access to trees and is created per Census block group. The score relates the tree canopy goal, existing tree canopy, and priority for tree planting based on several factors. It is on a scale of 0-100 and a lower score indicates a higher need for tree planting in that block group. The data shown in this map was downloaded from the National Tree Equity Score Map which is made by American Forests.
